

MultiColor Effect Pigments

MultiColors help improve skin tone, reduce graying and impart to skin an amplified, pure rich, subtle color with unique dimensionality. This dimensionality gives skin a natural radiance.

Product Name	Particle Size (µm)	Color	NOI (ISO 16128)

FROM LEFT TO RIGHT: KTZ® BOLERO CROMATICO, KTZ® FOLIAGE FLUTTER, KTZ® JAIPUR SUNSET, KTZ® WINTERVELD, KTZ® XIAN VISTAS

Color Correction

MultiColors enhance natural skin color and counteract uneven skin-tone. They impart natural radiance to bases in all textures and thereby lift and revitalize skin. In color cosmetics such as eyeshadows and lipsticks, MultiColors are vivid, deep and soft and appropriate for mature skin.

KTZ® XIAN VISTAS green tones can neutralize skin redness

KTZ® BOLERO CROMATICO

Good in light skin with Rose highlights. **Neutralizes Yellow-Green**

KTZ® FOLIAGE FLUTTER

Enhance light brown to olive skins. **Neutralizes Yellow-Green undertones**

KTZ® JAIPUR SUNSET

Highlights Reds in medium to dark skin. **Neutralizes yellow**

KTZ® WINTERVELD

Especially effective in countering Grey in Caucasian skin. **Neutralizes Red**

KTZ® XIAN VISTAS

Duplicates the Yellow undertone of light Asian skin. **Neutralizes Red**
