

# Natural, Non-Microplastic Microsphere

## YuraQ M 15

### YuraQ M 15

INCI Name: *Phytelephas Aequatorialis Seed Powder*

Average Particle Size (D90): 15 µm

Oil Absorption: low (40 g/100g)

In the rainforests of Ecuador, a **native wild palm** (*Phytelephas aequatorialis*) produces a seed called Tagua. Local communities collect the nuts without interfering with the **ecosystem** and the hard nut is used in the luxury industry to support the **conservation** of the rainforest. The nut is **upcycled** and milled into a fine powder called YuraQ, which means white, in the local indigenous language.

YuraQ M 15 is a creamy white, small particle size powder. It can be used in a **wide range** of formulas, skin care, suncare, make-up, as a **smoothing, texturizing** agent and as a **microplastic replacement** of materials like PMMA and other polymers.

It is vegan, GMO-free, Natrue and COSMOS approved and compliant with the Nagoya protocol.

KPW-028B

## Setting Powder

### Part 1

- MICA S-ASG3 - Kobo Products: *Mica (And) Stearoyl Glutamic Acid* 82.35%
- YuraQ M 15 - Yucare/Kobo Products: *Phytelephas Aequatorialis Seed Powder* 10.00%
- SILICA SHELLS - Kobo Products: *Silica* 4.00%
- BYO-ASG3 - Kobo Products: *Iron Oxides (CI 77492) (And) Stearoyl Glutamic Acid* 0.30%
- BRO-ASG3 - Kobo Products: *Iron Oxides (CI 77491) (And) Stearoyl Glutamic Acid* 0.15%
- BBO-ASG3 - Kobo Products: *Iron Oxides (CI 77499) (And) Stearoyl Glutamic Acid* 0.10%
- Potassium Sorbate NF - Jeen International: *Potassium Sorbate* 0.10%

### Part 2

- SunBoost ATB Natural - Kobo Products: *Argania Spinosa Kernel Oil (And) Tocopheryl Acetate (And) Bisabolol* 3.00%

### Manufacturing Procedure

1. Combine Part 1 and blend until uniform.
2. Add Part 2 to Part 1 and blend until uniform.

### Description

This light weight Setting Powder has a translucent finish and sets makeup without looking chalky or dry. It features YuraQ M 15, a natural origin powder that offers a soft touch and creamy feel. It also adds a blurring effect and highlighting properties to the loose powder formulation. Kobo's ASG treated pigments and filler, which have a natural amino acid coating provide a creamy feel and good skin adhesion. SILICA SHELLS is a high oil absorption Silica that helps to absorb excess facial oils. SunBoost ATB Natural is a proprietary ratio of three skin conditioning agents that contributes additional benefits.
