Description:

This Long-Lasting Eyeshadow features FS treated powders that repel both water and oil and help to achieve long lasting make-up resilient to perspiration and sebum. KOBOGUARD® 5400 IDD forms a water-resistant film that offers long wear to this formulation. MAGNESIUM MYRISTATE is a dry binder that offers very good pressability. SALACOS® 99 is a light ester that can improve skin feel. KTZ® Pearlescent Pigments offer a unique pearlescent effect to the formulation. KoboMica S-25 gives a lightweight and transparent appearance.

Manufacturing Procedure:

1. Pass the premixed Part 1 through pulverizer.
2. Add Part 2 and blend well. Do not overheat.
3. Add Part 3 and blend well until color is fully developed.
4. Press at 1000 psi.
