## Description:

This silky, pasty formula takes away face makeup with a single wipe (with tissue or cloth). It is non-greasy with a hue of clean, white pearl which keeps the face glowing and refreshed-looking after makeup removal. LUSPLAN™ DD-DA7 is an emollient lanolin oil replacement with makeup removal properties. SunBoost ATB is a proprietary ratio of antioxidant, anti-irritant and anti-inflammatory agents, which delivers multiple antioxidant benefits such as anti-aging, hydration, rejuvenation, and anti-irritation while helping to clean and nourish skin. FLORITE PS-10 provides smooth, creamy feeling. MSS-500/5H is a natural silica microsphere which softens the wax structure and as result, imparts a pasty and easy-to-pick-up texture. KTZ® FINE WHITE adds a healthy white reflection to the skin after removal of makeup is completed.
