Description:

This foot cream helps keep feet smooth by preventing formation of dry skin and softening heels. JOS10M5 is Kobo's jojoba oil gellant with softening and moisturizing properties. Plandool™-G is a 100% plant-derived lanolin alternative ester which adds a unique smoothness to the end effect. It is a high molecular weight material with a melting point close to body temperature, offering unique moisture retention and richness. SunBoost ATB imparts skin conditioning and anti-irritation properties. MSS-500/N provides non-tacky feel and an elegant silky texture. The combination of CELLULOBEADS D-5 and CARESS® BN06 helps absorb sweat and odor, keeping feet dry and odorless throughout wear.

Manufacturing Procedure:

1. Combine Part 1. Prop mix and heat to 80°C. □
