Description:

This lipstick combines color with skincare. It offers full coverage and shine in a single application while hydrating and treating the lips. It features ND pigmentary dispersions in Diisostearyl Malate, that disperse easily into lipstick bases and help to achieve a high impact of color and gloss. Cn-HAHWS is a delivery system for Sodium Hyaluronate, known for its moisture capacity. Plandool™-MAS has a rich feel and provides gloss. Its structure, which is similar to skin intercellular lipids, improves moisture retention and TEWL. Plandool™-LG1, amino acid ester, is a stratum corneum repair ingredient. SunBoost ATB soothes the skin due to its Bisabolol and Vitamin E content. SALACOS® 334, synthetic butter, has superior emollience compared to shea butter and melts gently at below body temperature. The polymer ester LUSPLAN™ DD-DA7 imparts gloss. To help in water absorption and formula stability COSMOL™ 168ARV (a substitute for wool-derived lanolin with superior oxidative stability), COSMOL™ 182V and COSMOL™ 43V were used. SALACOS® 5418V provides a cushioned rich feel and SALACOS® 99 helps in bullet spreadability. KOBOGUARD® 5400 SQ is a film former in squalane and CO4OSS is a sodium saccharin dispersion that gives a slight sweet taste. PM WAX 82, a combination of waxes, is used to structure the lipstick.
