Description:

This rich colored, velvety mousse lipstick has moisturizing properties and transforms into a powder upon application. Kobo's ITT treated pigments RED 7CA K-12 and BTD-401 provide the intense color and show excellent affinity to the skin. T.I.O and SALACOS® 5418V are emollient esters that impart a nice, cushioned feel. SALACOS® 334 is a synthetic butter, with superior emollience compared to shea butter, which melts gently at body temperature. Plandool™-MAS, with a structure similar to skin intercellular lipids, improves moisture retention and TEWL. Plandool™-LG1, amino acid ester, is a stratum corneum repair ingredient. Cn-HAHWS is a delivery system for Sodium Hyaluronate, known for its moisture capacity. KOBOGUARD® 5400 SQ is a film former in squalane and CO4OSS is a sodium saccharin dispersion that gives a slight sweet taste. Kobo SMC-BNC9 is a solid complex with no plastic particles offering texture with a velvety, matte finish. GMS-NOE4 is a filler treated with Hydrogenated Olive Oil Stearyl Esters that provides a soft and emollient feel.

Manufacturing Procedure:

1. Combine Part 1, mix until full dispersion of pigments and heat to 70° C.
2. Add Part 2 and mix until homogeneous.
3. Add Part 3 and mix until homogeneous.
4. Add Part 4 and mix until homogeneous.
5. Pour into components.
