## Description:

This creamy textured lipstick has excellent compatibility with the skin and provides a slightly dry touch to the lips. Kobo's ITT treated pigments (BTD-401, BRO-I2 and RED 7CA K-12) are used to make the shade and enhance affinity to the skin. COSMOL™ 168ARV (a substitute for wool-derived lanolin with superior oxidative stability) helps with formula stability, and PM WAX 82, a combination of waxes, is used to structure the lipstick. SALACOS® 99 aids with bullet spreadability. MSS-500/3H is a Silica microspheres that give a glide-on application.
