Description:

This formula is an Active Lifestyle Pressed Powder with mattifying properties. It features FS treated powders that repel both water and oil and help to achieve long-lasting makeup resilient to perspiration and sebum. KOBOGUARD® 5400 IDD forms a water-resistant film that offers long wear to this formulation. ZINC MYRISTATE (MB) is a dry binder that offers very good pressability. TALC AJM is a micronized filler that improves feel and pressability. SP-10 is a microsphere that provides good payoff and application while contributing to the pressability. MSS-500/3H is an oil absorbing microsphere that can give immediate matte effect and oil control.

Manufacturing Procedure:

1. Add Part 1 and mix until color is fully developed.
2. Pre-mix Part 2 and pulverize to Part 1. Mix until homogeneous.
3. Pass through 400um sieve.
4. Press at 1300 psi.
