Description:

This silky and creamy pressed powder foundation provides buildable coverage and a natural finish. Kobo SMC-BNC9 provides the formula with a soft and silky feel, and improves spreadability, coverage and adherence of the powder to the skin. The 11S treated pigments create the shade and disperse easily. SERICITE GMS-4C gives a glide-on application. ZINC MYRISTATE (MB) also contributes to the feel and acts as the formula's dry binder system. KOBOGUARD® MQ60DM acts as liquid binder and provides long wear properties.

Manufacturing Procedure:

1. Micropulverize Part 1 until color is fully developed.
2. Slowly add Part 2 mixture to Part 1.
3. Blend well and micropulverize until oils are completely absorbed.
4. Press at 500psi.
